## DETAILED ACTION

### *Allowable Subject Matter*

The argument in the response to the non-final rejection is persuasive and the non-final rejection of previous office action is withdrawn. Claims 1, 4-11, and 13-23 are allowed. The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims:

#### Reference Hashimoto et al. (US 6,593,159)

- Hashimoto et al. do not disclose forming a cavity having a length, width and thickness in a body of a sapphire substrate having relatively low thermal conductivity by ablating the body with a laser, the body having a thickness, a bottom surface and a top surface, the cavity opening onto at least the bottom surface.
- Filling the cavity with at least one material having a greater thermal conductivity than the body.

#### Reference Kawai (US 6,239,033)

- Kawai discloses forming a trench (not a cavity) in a body of a sapphire substrate, but does not disclose the trench formed by ablating the body with a laser.
- The length and width of the cavity is substantially equal to or greater than the corresponding length and width of the semiconductor structure.

#### Brown et al. (US 6,413,839)

Art Unit: 2814

- Brown et al. do not disclose forming a cavity having a length, width and thickness in a body of a sapphire substrate.
- Filling the cavity with at least one material having a greater thermal conductivity than the body.
- Forming a semiconductor structure over the top surface and over the cavity.

Therefore, the above references do not disclose the claimed invention of present application and claims 1, 4-11, and 13-23 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Wai-Sing Louie whose telephone number is (571) 272-1709. The examiner can normally be reached on 7:30 AM to 4:00 PM.
